

April Newsletter

Toddlers | 2021 | Miss Kaitlyn & Miss Sadie

Announcements

This month is all about the Earth. From how to grow your own plants to weather that contributes to plant grow and the insects you can find outside in your gardens.

We will begin the month by planting seeds in our classroom and watching them grow. Once in our new center we will plant them outside and care for them for years to come.

Looking at Week 3, we will be celebrating the Earth. Our toddlers are going to go outside and help clean up around our building. We will teach them how to care for our planet and recycle what we find.

Be sure to check your emails and sign up for our ProCare App! If you have any questions, please feel free to ask
